## PROFESSIONAL SUMMARY

Fresher Software Engineer with internship experience and a strong foundation in programming and software development. Skilled in problem-solving, writing efficient code, and working in collaborative development environments. Eager to contribute to building reliable and scalable software solutions.

## SKILLS

- Programming Languages:** Python, PHP, SQL, HTML, CSS
- Full-Stack Development:** MERN Stack (MongoDB, Express.js, React, Node.js), Angular, HTML5, CSS3, Bootstrap, Responsive UI, API Integration, Authentication.
- Databases:** MongoDB, MySQL
- Data Analytics:** Pandas, NumPy, **Power BI**, Matplotlib, Excel, EDA
- Tools:** Git, Docker, CI/CD, Agile, SDLC

## INTERNSHIPS/PROJECTS

### INTERNSHIPS:

#### Edunet Foundation

##### **Data Analysis Internship:**

- Completed internship in Data Analytics, gaining hands-on experience with Python, data visualization, and data analysis tools.
- Worked on real-world datasets to improve analytical thinking, data interpretation, and problem-solving skills.

#### Fice Education

##### **AI Azure Internship**

- Completed an internship in Artificial Intelligence and Azure, gaining hands-on exposure to AI concepts and cloud-based tools.
- Worked on practical tasks that improved understanding of AI applications, cloud platforms, and analytical problem-solving.

### PROJECTS:

- Garbage Image Classification:** Built a model to classify waste types like plastic, paper, and metal to support better waste management.
- Forest Fire Detection:** Developed a system to detect early signs of forest fires from images for faster monitoring and prevention.
- Bitcoin Price Forecasting:** Created a model to analyze past data and predict Bitcoin price trends.

## EDUCATION

Gandhi Engineering College (GEC), Bhubaneswar  
B.Tech, Computer Science Engineering(Data Science)

2023-2027

KMBB Junior Science College, Cuttack  
+2, Higher Secondary Education

2021-2023

## ADDITIONAL INFORMATION:

- Certification:** Certified in AI, Data Science, Cybersecurity, and Software Engineering through programs by Google Cloud, HP LIFE, and industry simulations with JPMorgan Chase & Co. and Deloitte.
- Participation:** Participated in **Smart India Hackathon** and **BPUT Hackathon**, contributing to team-based problem solving and innovative solution development.
